Re: Nebraska Republican Federal Campaign Committee
Identification Number C00032334
August Monthly Report (07/01/08-07/31/08)

This letter is in response to the Commission's letter dated September 17, 2008.

The Commission requested additional information regarding payments disclosed as "FEA Voter ID - Generic". These payments were for Voter ID purposes for the state party only. The Commission also requested additional information regarding payments disclosed as "FEA Candidate Collateral Material". These payments were for volunteer driven activity for the state party and meet the definition of exempt activity; therefore disclosure of any candidate is not required. None of these disbursements were for general public communication and only federally permissible funds were used. Because these payments did meet the definition of Federal Election Activity, they were paid with funds permissible for FEA and were reported on Line 30(b).

The Commission requested additional information regarding payments disclosed on our August Monthly Report as "REIMBURSEMENT: SEE BELOW" which did not itemize individual vendors. There are 2 such disbursements on our report which do not contain itemization. In each case the aggregate payments to the original vendor do not exceed \$200 and therefore itemization is unnecessary.

Sincerely,
Matt Miltenberger
Executive Director
